

Geagte Ouers

Ons ervaar dat mense verskillende menings oor eksamens huldig. Eksamens was vir 'n paar jaar nie deel van ons assessering in die laerskool nie. Ongeag mense se menings, is dit nou terug en formeel deel van ons kurrikulum. Die Desember-eksamen is die belangrikste aangesien dit 'n essensiële deel van die jaarpunt tel, wat dit vir Gr 7 veral 'n uiters belangrike en deurslaggewende deel van die jaar maak.

Te veel Gr 7's verlaat ons met 'n gemiddelde van 80%, net om dan in Gr 8 te sukkel om 60% te behaal, as gevolg van 'n enorme verskil in verwagtinge van Gr 8, akademiese spanning, buitemuurse druk en algemene vaardighede wat by die nuwe omgewing aangepas moet word. Die belangrikste uitkoms is die grondslag wat ons vir ons leerders lê sodat hulle goeie matiekresultate kan behaal.

Uit foute van die verlede het ons geleer dat eksamenvaardighede gewoonlik 'n struikelblok in die hoërskool is. Ons moet leerders binne die tydraamwerk wat ons toegelaat word, voorberei.

Dit is nie slegs die aflê van 'n vraestel of die beantwoording van vrae binne 'n vasgestelde tydraamwerk wat 'n uitdaging is nie, maar ook die druk van hersiening, voorbereiding en die skryf van vakke wat 'n vaardigheid is wat ons moet vestig en oefen. Dit beteken dan ook dat twee vakke of subafdelings op een dag geskryf moet word. Laerskoolleerders het nie "blokdae" nie en ons het ook nie die luukse van 'n oggend- of middagsessie nie.

Die werk wat in die eksamen behandel word en die eksamenrooster vir Gr 4 tot 7 word betyds aan ouers deurgegee. Dit word 14 dae voor die tyd gedoen sodat daar genoeg tyd is vir hersiening, wat die druk verlig. Ons het uit die verlede geleer dat die beste metode is om die hersieningsvaardigheid te oefen.

Ons het met drie laerskole gesels wat op dieselfde vlak as ons skool is en in alle gevalle word dieselfde tydraamwerk toegepas. In een geval is daar druk op Gr 4 tot 6 met net vyf dae wat toegelaat word, terwyl Gr 7 die eksamen binne sewe dae moet aflê.

Om die waarheid te sê, glo ons dat ons rooster genoegsame tyd toelaat om die vaardigheid te oefen, maar ook met die korrekte fokus in gedagte. Uiteindelik mik ons na goeie resultate in Gr 12 en vir Gr 7 om vaardighede te ontwikkel en 'n deeglike en behoorlike grondslag vir ons leerders se hoërskoolloopbaan te lê.

U het u kind aan ons toevertrou, verstaan asseblief en respekteer die feit dat die skool dit sal toepas wat ons as professionele laerskoolonderwysers as in die beste belang van al ons leerders beskou. U moet ons respekteer, vertrou en toelaat om ons werk te doen. Met alle respek, indien u dit nie kan doen nie, is u by die verkeerde skool.

Hier by Sunridge poog ons om die toekoms vir ons kinders te verbeter – ons het professionele laerskoolonderwysers wat hiermee werk. Ons verstaan dat daar altyd verskillende menings sal wees, maar negatiewe akademiese skinderpraatjies of menings is nie die manier om dit te hanteer nie. Praat liever op 'n respekvolle wyse met ons kurrikulumhoof, mnr Janse van Rensburg en sy span, en kry inligting oor die pad vorentoe.

"Die onderwysberoep dra meer tot die toekoms van ons gemeenskap by as enige enkele ander beroep." - John Wooden

Dear Parents

We often find that people's views and opinions on examinations differ. For a few years examinations were not part of our assessment in primary school. Irrespective of the different opinions, exams have been reintroduced and are formally part of our curriculum. The most important examination is the one that takes place in December. These exams form an essential part of the year mark, making it a vital and influential part of each learner's year.

Too many grade 7's leave primary school with an 80% average but struggle to achieve 60% in grade 8 due to a vast difference in expectations, academic pressure, extra mural pressure and general skills needed to adapt to the different environment. The most important outcome is the foundation we lay for our learners to achieve good matric results.

We have learnt from mistakes made in the past and we are now well aware that examinations require a certain skill. The lack of this skill tends to be a stumbling block in high school. We need to prepare learners within the time frame allowed.

It's not only the writing of a question paper and the answering of questions within a set time frame that seems to be challenging. The pressure of reviewing, preparing and writing subjects is the skill we need to establish and practice. Primary School learners do not have "block days" nor do we have the luxury of a morning or afternoon session. This also means that two subjects or sub divisions have to be written in one day.

We try to assist grades 4 to 7 by providing the time table and the work that must be covered for examinations well in advance. This is done 14 days prior to the exams to allow learners the opportunity to revise well in advance to ease pressure and to help them cope with a bigger volume of work. In the past this has proved to be the best method to practice the skill of preparation.

We consulted with three primary schools which we would like to be measured against; the exact same time frame is used. In one case the other school applies greater pressure on grades 4 to 6 by only allowing a 5 day time frame, while grade 7 learners write the exams over a 7 day time frame.

We believe our time table is sufficient for developing the skills needed but also with the correct focus in mind. Ultimately we are aiming at laying a sound and proper foundation for our grade 7 learners in order for them to develop the necessary skills for a successful high school career.

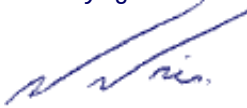

You entrust your child to us, please understand and respect the fact that this school will apply what we, as professional primary school educators, see as the best for all our learners. You need to respect, trust and allow us to do our work. Should you not be able to do this, with all due respect, you are at the wrong school.

At Sunridge we endeavour to serve the future of our children. We have professional primary school teachers working towards this. We understand that there will always be different opinions, but negative academic gossip or views is not the way forward. Rather consult with our Curriculum Head, Mr Janse van Rensburg and his team, in a respectful manner, and become informed regarding our way forward.

"The teaching profession contributes more to the future of our society than any other single profession." - John Wooden

PHOTO GALLERY / FOTOGALERIE

FOCUS ON *Dalene Hart*

EARLY LIFE: I was born and bred in PE. I am the eldest of 3 daughters and we are blessed to still have our mother with us.

FAMILY LIFE: Peter and I fell head-over-heels in love back in the late 80's. We married in November 1990 and started our family in 1992. We have 2 sons and a daughter.

CAREER LIFE: I worked at three companies before landing my dream job. I worked for 20 years at a metal manufacturer/distributor as the financial accountant and internal auditor of the trading division. That meant many days away from my family and I was grateful when that season came to an end. I temped here at Sunridge for part of 2013 and joined the Sunshine family fulltime in October last year.

ACCOMPLISHMENTS: I deem almost 25 years of marriage and 3 kids as an accomplishment.

INTERESTING FACTS ABOUT YOURSELF: We live on a smallholding, so I have ample space for my veggie and herb gardens. I also enjoy sewing and cooking. I love watching all types of series in my spare time.

Please answer the following five questions:

1. At which store would you like to max-out your credit card? Only one?! Then it will have to be Woolworths
2. What is the oldest thing in your refrigerator? Oyster oil
3. What's the strangest talent you have? I have many talents, but I don't consider any of them "strange".
4. What are three things still left on your bucket list? A boat cruise, exploring areas of SA we haven't yet and possibly visiting the French countryside.
5. What, or who, are you a "closet" fan of? Valentino Rossi
