

## Geagte Ouers

Ek het 'n paar oproepe van ouers gehad wat navraag doen oor die huidige toestand van onderrig en die negatiewe kwessies in hierdie verband. Dit is baie maklik om in hierdie negatiewe ingesteldheid verstrengel te raak. Dan kom 'n mens agter dat jy deel van die probleem is en nie deel van die oplossing nie.

Ons doen alles in ons vermoë om hierdie aangeleentheid professioneel te bestuur en ontelbare geleenthede lê binne hierdie uitdagings verskuil. Op 'n meer persoonlike vlak wil ek vra hoekom 'n mens iets eers waardeer wanneer jy dit verloor het? Miskien is dit omdat ons daaraan gewoon geraak het of dit as vanselfsprekend aanvaar, of dalk omdat dit gratis is?

Die kern van die saak is dat die mensdom eers die waarde van sekere soorte diere en plante besef het nadat dit verdwyn het. Dan spandeer ons miljoene om dit te probeer regstel.

Glad nie so vergesog om te sê dis ook op onderwys van toepassing nie. 'n Mens verstaan die opmerking "as my kind tog net kan klaar wees voordat die skip sink". Dit beteken 'n mens fokus op die probleem. As ons egter op die oplossings en die toekoms van kinders wat nog moet skoolgaan, fokus, sal ons meer waarde toevoeg. Dit is belangriker om waarde toe te voeg en 'n nalatenskap agter te laat, as om daarop te fokus om ons eie kinders deur hierdie moeilike tyd te kry.

Ek daag ouers met groot respek uit om deel van die oplossing te word. Dit begin daarby om u verantwoordelikhede teenoor Sunridge na te kom. Die eerste stap is om skoolfooie te betaal om volhoubaarheid en die lewering van gehalte-onderrig te verseker. Om u kind se onderwysers en u kind te ondersteun, is die volgende stap en om dit alles met 'n positiewe gesindheid te doen, beteken dat u die vernaamste kwessie wat gehalte-onderrig in die wêreld bedreig, aanspreek.

Niks is verniet nie en die feit is dat u ontvang waarvoor u bereid is om te betaal, hetsy deel van die probleem of deel van die oplossing. Ek verstaan nou wat dit beteken om te sê: "Jy sal maai wat jy saai."

Ek kan met trots verklaar dat 90% van ons ouers reeds deel van die oplossing is, hulle maak 'n verskil en is 'n waardevolle bate en bondgenoot van die onderwys. Dit is nooit te laat om by hulle aan te sluit en in die beste belang van onderwys te verander nie.

Per slot van rekening is ingesteldheid die antwoord! Ingesteldheid sal uiteindelik die onderwys verlam of red. Dit is u besluit of u op 'n positiewe wyse by die onderrig van u kind betrokke wil raak. Onderwys is al manier om ons land en sy toekoms te verander.

Ouers wat eerlik en verantwoordelik is en respek deur integriteit en deernis toon, sal die vrugte van sukses pluk.

## Dear Parents

I have had a few phone calls from parents enquiring about the current state and negative issues in education. It's so easy to fall into the negative trap and to find yourself becoming part of the problem instead of being part of the solution.

We do everything in our power to manage this professionally - within these challenges lie endless opportunities. I will rather bring this (aspect) closer to home by asking: 'why is it that only after you have lost something you realize the value of it?' Maybe it's due to the fact that we get so used to it and accept it to be obvious or maybe for free?

So be it, the bottom line is we only realise the value of certain species of animals and plants after they have disappeared. We then spend millions trying to rectify it.

Not so far fetched to say the same for education. Understandably the remark "if only my child can finish before this ship sinks". This means we are focusing on the problem. If we rather focus on the solutions and the future of the children still to come, we will be able to add more value. It is more important to add value and to leave a legacy than to focus on getting our own children through this difficult period.

It is with the utmost respect that I challenge parents to become part of the solution. This starts with honouring your responsibility towards Sunridge. The first step is to pay your school fees as they are the key to ensure sustainability and delivery of quality education. Supporting your child's teachers while supporting your child is the very next step. To do all of it while being positive is addressing the core issue of what is threatening quality education in the world.

Nothing is for free and in the end, what you are willing to pay for will be what you receive, being it to be part of the problem or part of the solution. I now understand the old saying "You will reap what you sow"

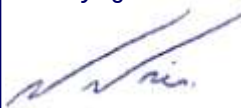

I am proud to say that 90% of our parents are already part of the solution, they are making a difference and are a valuable asset and ally to education. It is never too late to join them and to change in the best interest of education.

**Bottom line, it's all about attitude!**

Attitude will eventually cripple or save education, it is your decision to get positively involved and it will be the single most valuable contribution you can make towards the education of your child. Only through education will we be able to change our country and its future.

Parents who are honest and responsible and show respect through integrity and compassion, will harvest the fruit of success.
